Boost Sales During The Recession

Hello Custom Field 1

Signs of the recession are all around us and sales are down for most businesses. But if you own a vehicle or a fleet of vehicles at this trying time, then you have the best marketing tool at your fingertips. You can include your company brand and identity on every vehicle you have and let your customers know that you are the best company out there to service them.

Increased advertising spending during this recession, will provide a better ROI (return on investment) because most of your competitors are cutting down on their advertising. **By investing in vehicle branding you create product and brand awareness... leading to more sales.** Be it in the parking lot or on the road, no other form of advertising offers a lower cost per impression value, than vehicle graphics.

Express the true personality of your brand. From simple lettering to dramatic full color vehicle wraps with see-through window graphics, the options are limitless. Fleet branding is the most professional representation of your company at any given time.

Let us Transform Your Fleet

Whether you are a large company looking to renovate your entire fleet or a small business branding your first vehicle, our aim is to understand your branding goals and develop a program to meet or exceed those goals.

The 3M wrap vinyl we use is the best in its class. This vinyl can be removed without damaging the vehicle's paint / gel coat at any time; so you can change your graphics as many times as you like without worrying about the vehicle paint.

Moreover, the lustre overlamine we use on our graphics, protects the wrap from most chemicals, detergents, abrasive cleaning, minor scratches and regular wear-and-tear.

The warranty on our 3M vinyl and laminate and the solvent inks we use for vehicle wrapping, ensures your design will be out there for a long time without cracking, fading, peeling, or losing any of its original color vibrance.

Let the professionals at Saifee Signs transform your fleet into a marketing sensation.
